# "WEAVER'S" HARDY CHRYSANTHEMUMS

In our ever increasing list of "mums", we have a complete collection of the best and most popular, profitable varieties—inside and out.

Hardy "mums" are liked by all. They produce a wonderful display of blooms long after most flowers are gone. The many colored flowers, long graceful stems are unexcelled for bouquets, table and other decorations, often lasting for weeks after cutting under favorable conditions.

Each "Group" covers a flowering period from late August until November—the later kinds bloom beautifully even after freezing. Lifted from the garden or border in late fall, and potted, make excellent showy lasting plants for all purposes. Late varieties remain good until after Thanksgiving.

To insure complete and prompt delivery, orders should be placed as early as possible.

The finest flowers are grown from the size plants we supply as priced in each group.

**PLEASE NOTE:** All our stock plants used for propagation are field grown and never subject to warm greenhouse conditions, which method is in direct contrast to the usual practice of using stock plants that have been subject to a hot greenhouse all summer. Today the better growers agree, the continued use of such greenhouse plants as stock, will slowly but surely cause weak plants and poorer flowers.

†Marked are 24-36". Tall, branchy, very prolific.
‡Marked are 24-36". Tall, erect, stout stemmed.
||Marked are 15-20". Dwarf, compact, good potted.
*Marked are 15-20". Dwarf, branchy, O. K. potted.
§Marked are 10-12". Very dwarf, compact, trailing. Good potted; for rockeries and borders.
Aug., Sept., Oct., Nov.,—Blooming time.

## CHRYSANTHEMUMS ALPHABETICAL LIST

Refer to Group mentioned for prices on various quantities from 1 to 1000.

Prices given below are for Rooted Cuttings, on any one variety per 100. (25 at 100 rate).

No. CW366, 7 ea. 354, kinds,(2478 plants)100.00

I received your order of Vincas and Coleus, and found them in perfect condition. I was very glad to receive them and wish to thank you very kindly. Again thanking you and wishing you future success. I am,

Fall River, Mass.

July 3rd, 1935

I am writing to tell you my good luck I have had with your plants. Out of over 200 Coleus, Lantanas and Chrysanthemums, I just lost 1 Amelia Chrysanthemum plant. It was little and didn't start out right, which I think is good luck.

Stockport, Ia.

June 13, 1935

The plants came in fine shape and are eminently satisfactory as have been all purchases from you. I hope to call again. Best wishes.

East Orange, N. J.

June 17, 1935

Please accept my sincere thanks for the way you took care of my very small order of last week—Statice & Portulaca. They arrived quicker and fresher than local grown, the plants were good, but the packing was better.

Brewster, N. Y.

Oct. 21, 1935

The Chrysanthemums we bought from you are very beautiful this season, and we have become very much interested in Mums, especially since Dahlia blooms retail so cheap here.

New Albany, Ind.

Your cuttings arrived OK, so far I have lost only two. I have already recommended your Lantanas to other growers here and I trust you will get results soon. Yours respectfully,

Peterson, N. J.

---

## CONDITIONS OF SALE

Packing Free and Safe Arrival Guaranteed.

TERMS:Remittance with order or C. O. D. with everyone regardless of rating, as no bookkeeping or collection fees are responsible for the low prices we make.

PRICES quoted are subject to our usual conditions of sale for perishable commodities and causes beyond our control, and are for the quantities stated. Smaller or less quantities than priced will be quoted on application: 10 pot plants; 25 divisions, rooted cuttings, or transplants at 100 rate; 250 at 1000 rate.

SUBSTITUTION:Should certain varieties or colors become exhausted, we will send others as near or better, unless advised to contrary, using our best judgment on what will do best in your locality.

NON-WARRANTY: We wish it to be distinctly understood that while we take every precaution to have all plants, seeds, and bulbs true to name, we give no warranty, express or implied, as to description, quality, productiveness, or any other matter, of any of the plants, seeds, or bulbs we send out, and will not in any way be responsible for the crop. Every order we receive will be executed on these conditions only, and they must be accepted by the customer when ordering.

## WE TRY TO SATISFY

# CHRYSANTHEMUMS

Everyone's flower and a certain fall money crop, when cash can always be used to advantage.

**CUT MUMS** COST LITTLE from outside plantings. A single row 300 feet long using our collection No. WAB503,—an assortment of 300 plants costing only $5., will produce 150 to 200 large bunches, (2 and 3 times as large as usual greenhouse pompoms), which bring a cash income, even at roadside stands, of $75 to $100—twice as much in most florist shops—and to think that 10 rows 300 feet long, using 3000 plants—our combination offer No. WAB30—costing $45. will produce approximately $1000. in fall income.

NO OTHER FLOWER compares in cash income, for with no more care than Zinnias or other outside flowers, they start producing "cuts" in late August and early September, with most varieties reaching perfection about middle October, and with most any of our assortments cutting continues over a long period, as many flowers are frost proof and stand some freezing, and may often be cut up to Thanksgiving.
